Computer Science

Art Institute of Atlanta | 2009-2010
Audio Engineering

ACCOLADES

WORK EXPERIENCE

2020 - Present

Freelance Developer

Freelance

Private Freelance work for various clients.

- Built private web applications for clients using the MERN stack and some React/Ruby on Rails applications.
- Consulted clients on projects or technologies that they may have had in mind
- Projects were strictly small scale.
- Wrote test cases for some clients using Jest
- Privately mentored/tutored aspiring developers that were using or were interested in Javascript.

2017 - 2020

Software Developer

Variance Reduction International, Inc. (VRI)

Built and designed an internal business management solution for the company:

- Designed the SQL database that the application would use, and built it out as a RESTful API with Ruby On Rails
- Led the implementation of converting the Front End from Angular.js to React
- Led the conversion of the project from being a strictly Ruby On Rails, to a React client-side application using a RESTful RoR API deployed as a single application.
- Designed and implemented the Administrative dashboard.
- Additional responsibilities included AWS deployment via Heroku
- Wrote test cases for in-house testing using Jest and Rspec
- Researched emerging technologies or toolsthat the project may eventually use, this led to the conversion of the application from a strictly Ruby On Rails app to a React client application using a RESTful Ruby on Rails API. This also led to implementing Redux for state management.
- Managed deliverables for the team.

2017 - 2017

Course & Immersive Instructional Associate

General Assembly, Atlanta, US

Instructional assistant to Web Development Immersive instructors.

Responsibilities include:

- Preparing lesson(s) appropriately as needed to teach the course.
- Ensuring students receive regular, timely feedback on performance, assignments, and course progress.
- Provide hiring support if the instruction team requires any additional roles.
- Provide students with mentorship and feedback.
- Assisting lead instructors with lessons and administrative duties.
- Teaching students lessons from the course curriculum.

2017 - 2017
